

Windows XP:

Copy the link from the address bar above your countdown clock

Right Click on your desktop, Choose Properties

Choose Desktop Tab

Choose Customize Desktop

Choose the Web Tab

Select New

Paste in the link and OK

You can resize to just include the countdown clock.

Macintosh

Check out Desktopr to add the countdown clock to your desktop

<http://itunes.apple.com/us/app/desktopr/id452693880?mt=12>

Or:

Add Snippets of Live Web Pages to your Desktop

[Snippage](#), a free Adobe AIR utility available for both Mac and Windows. Snippage, in simple English, lets you instantly turn any web page (or just a portion) into a desktop gadget (or widget depending on whether you are using a Windows PC or a Mac).
